

Call for Participation

KOREN Workshop 2009 (Spring)

May 21~22, 2009

Imperial Palace Hotel, Seoul, Korea

We heartily invite you to participate in the **TEIN3 Launch Ceremony** and the **KOREN Workshop 2009** to be held jointly by National Information Society Agency(NIA), KT, and the KOREN User Community at the Imperial Palace Hotel in Seoul, Korea on May 21~22, 2009, supported by Korea Communications Commission(KCC). The TEIN3 Launch Ceremony will be held in conjunction with the KOREN Workshop 2009 on May 21, 2009.

The general objectives of the KOREN Workshop are:

- To introduce the roles and recent activities of the KOREN/APII/TEIN projects
- To gather research & application results on KOREN/APII/TEIN links
- To discuss future plans for the next phase of KOREN/APII/TEIN projects
- To promote research activities on KOREN/APII/TEIN and encourage its usages

(*) **KOREN(Korea Advanced Research Network)** is a non-profit testbed network infrastructure established for the purpose of facilitating R&D in IT and encouraging international joint research cooperation. It provides a high quality of broadband convergence network(BcN) testbed for domestic and international research activities to industries, academia, and research institutions, enabling tests of future network technologies and supporting R&D on advanced applications. KOREN enables internetworking and field testing which cannot be performed over commercial networks, validation research on high-capacity application services, and international research cooperation through internetworking with global research networks. KOREN reduces R&D cost for researchers including provision of free Giga network connection service. KOREN is the only advanced research network that allows high-capacity traffic solely for testing purposes in Korea.
